We recently met the management of Sunteck Realty Ltd (SRL) to understand its business and the way forward for the Company. SRL is a Mumbai focused developer having quality land banks with clean and clear titles, and premium positioning of its projects in every micro market that it caters. SRL has a project portfolio of ~23 msf spread across 25 projects, with ~7 msf BUA under execution by end FY17. With marquee portfolio positioned at the top end of each micro market, SRL has a strong visibility of future cash flows. With low debt and robust execution, SRL can achieve substantial value creation in the medium term. We remain positive on SRL's future prospects and initiate coverage on SRL with a 'Buy' rating and a FY18E TP of Rs 358.

■ **Strong visibility of future cash flows**

SRL has strong visibility on future cash flows from its ongoing and already completed projects. From SRL's 6 completed projects with BUA of ~2.5 msf and 8 ongoing projects with BUA of ~3.4 msf, the company is expected to generate Rs 11bn of cash flows. Cumulatively from all the above projects SRL is expected to generate free cash flows of Rs 21bn and Rs 23bn respectively for FY17 and FY18.

■ **Consolidated revenue to grow at a CAGR of 26.1% over FY16-18E**

At the end of Q4FY16, SRL's unrecognised pre-sales stood at ~Rs 17bn which is 2.2x its FY16 sales giving strong revenue visibility for FY17-18E. We expect SRL to recognise its Signia Pearl revenues in FY17, while Sunteck City – 1st Avenue and Signia High should come for revenue recognition in FY18. In our model we have forecasted revenue CAGR of 26.1% for SRL's consolidated revenue over FY16-18E period.

■ **PAT CAGR of 34.4% over FY16-18E with 420bps expansion in margin**

We believe, going forward, new sales momentum coupled with execution of its ongoing projects would help the company to ramp up its earnings over the next few years. We expect SRL to report 34.4% CAGR in its earnings over FY16-18E with nearly 420bps expansion in its EBITDA margin.

Valuation

We have valued SRL using DCF method, wherein we have calculated value of its real estate business comprising ongoing and forthcoming projects, planned projects, pending value from completed development projects and completed annuity projects. Our DCF method yields a NAV of Rs 398/share for SRL. Applying a 10% discount to our NAV, we arrive at a target price of Rs 358/share for SRL. At the CMP of Rs 228, SRL is currently available at a steep discount of 42.7% to its NAV of Rs 398, which is quite attractive given the company's future growth potential. We initiate coverage on SRL with a BUY rating and a target price of Rs 358, which gives an upside potential of 57%.

Company Background

SRL is one of the country's leading real estate development companies with city-centric operations well spread out across the Mumbai region. The company's business focuses on designing, developing and managing high-end and premium residential and commercial properties. SRL has carved out a niche for itself in the luxury and ultra luxury segment by differentiating itself in each micro-market through premium product positioning, brand partnerships and having different reputed channel partners for each product to attract corporate, HNI and retail customers. Moreover, SRL intends to keep servicing the segment 'A' customers in each micro-market to meet their growing needs and complementing their earnings.

SRL's presence across Mumbai

Source: Company Presentation, IndiaNivesh Research

Business Overview

SRL's strength lies in niche positioning of its products to each micro-market that the company caters to. Thus in order to differentiate its projects from its peers in the market, SRL has developed four brands that resonate well with its product offerings across its residential and commercial developments.

1. **'Signature' brand** – This brand is used for ultra luxury residences aimed at high net worth individuals. The property is located in prime city locations and has apartment size of over 7,000-11,000 sq ft. The company's flagship development 'Signature Island' in Bandra-Kurla Complex (BKC) Mumbai, is marketed under this brand.
2. **'Signia' brand** – This brand is used for premium and mid-level residences in select suburban micro-markets. Apartments under this brand are generally between ~1,200 and ~5,000 sq ft in size.
3. **'Sunteck' brand**–This brand is used for commercial developments.
4. **'Sunteck City' brand** – This brand is used for larger formats and mixed used developments.

SRL's various projects located in BKC

Investment Rationale

The real estate sector which usually has debt heavy companies, SRL is a marked exception on that front. The company has a low net debt/equity ratio of 0.68 at the end of FY16, which is further expected to come down to 0.40 by the end of FY18. SRL has recognised Rs 20bn revenues in P&L over the last 3 years, whereas its unrecognised revenue stands at Rs 17bn. The company has delivered ~2.5 msf (worth Rs 40bn) in last 6 years and another ~2.2 msf (worth Rs 34bn) is expected to be delivered in next 2 years. Nearly 7 msf BUA to be under execution by end FY17 and is expected to be completed in next 4 years. A combination of completed and ongoing projects will boost SRL's earnings over the next two years.

■ With higher urbanisation, real estate demand set to increase

The real estate sector with forward and backward linkages to 250 ancillary industries has one of the highest multiplier effects in terms of contribution to GDP as per CREDAI. It contributed ~6.3% to the GDP in FY13 and this is likely to increase to 13% in FY25. As per the report, urbanization in India has been increasing at a rapid pace with over 71mn people added to the urban population between 2001 and 2011. At this rate, ~534mn people will live in cities by 2026. With higher urbanization, real estate demand is set to increase, as a result, opportunities for the real estate sector look encouraging.

Rapid urbanisation will lead to higher real estate demand

Source: CREDAI, IndiaNivesh Research

As per Ministry of Statistics and Programme Implementation (MoSPI), 18.8mn people grapple with housing shortage in urban India. Even at the current levels, there remains a huge pent up demand for real estate development. With the announcement of "Housing for all by 2022" there has been a renewed impetus on low cost housing by the government. Apart from these, various new smart cities are being planned which would add further to the real estate demand.

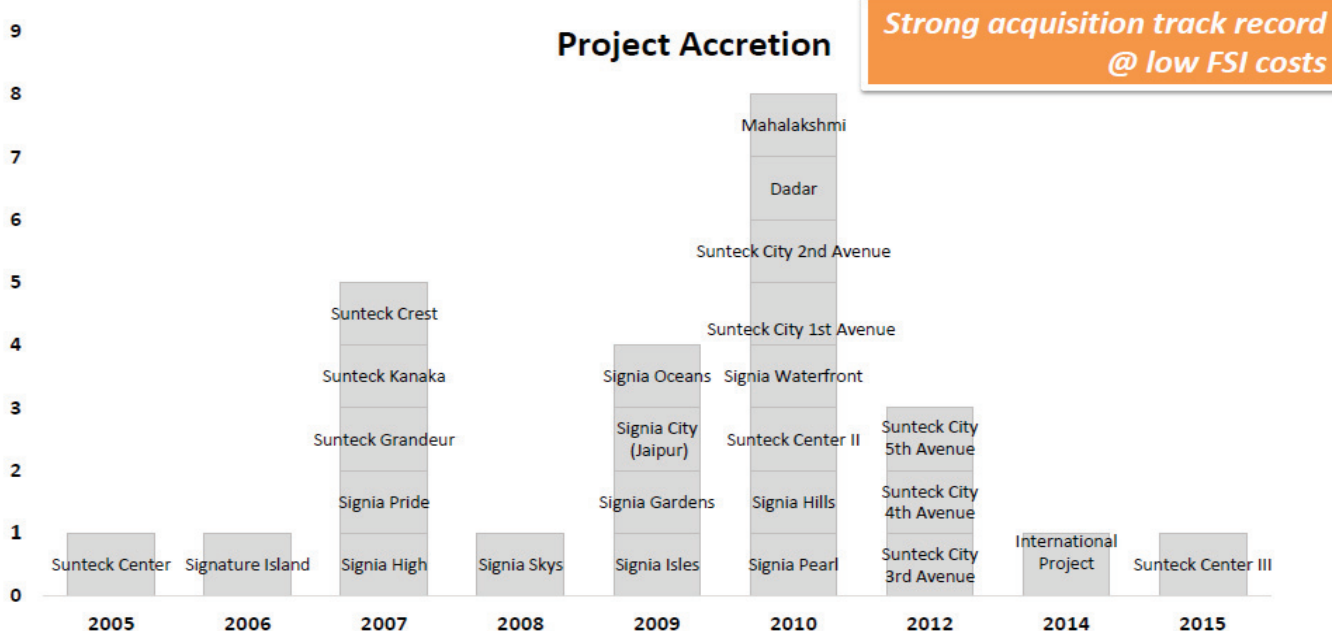

■ **Macro environment turning positive for credible projects**

Several measures have been taken by government and different authorities like RBI to facilitate 'Housing for all by 2022'. In six metropolitan cities loans up to Rs 5mn and in other cities upto Rs 4mn will be eligible for priority sector lending. RBI has also exempted long term bonds raised for funding affordable housing from mandatory regulatory norms such as CRR and SLR. These measures would result in lower interest rates, reduced cost of funds and better liquidity. Also lower inflation and interest rate reductions will improve affordability for home buyers. The Real Estate Regulation Act (RERA) will improve transparency and bring back home buyers' confidence. Ease of doing business will improve by bringing down number of approvals. Removal of Dividend Distribution Tax (DDT) on REITs will help boost demand. Also pay increase for PSU employees / civil servants as per 7th pay commission would facilitate housing demand. Apart from these, some other measures have also been taken to boost housing demand, like External commercial borrowing (ECB) has been allowed for low cost affordable housing and 1% subsidy is being provided on loans up to Rs 1.5mn for purchase of houses costing less than Rs 2.5mn, also investment linked deduction of capital expenditure in affordable housing has been increased to 150%.

■ **Consistently built pipeline proves SRL's acquisition strength**

SRL has a unique strategy of focusing on development of urban land plots through JDA/JV with historical property owner or by partnership with local authorities. This strategy of SRL has lent significant visibility to its project execution and accretion pipelines.

■ **Multiple engines to chart the next level of growth for SRL**

SRL is well poised for the next level of growth fuelled by the following four growth engines in its portfolio.

1. BKC – The financial hub of India
2. ODC – The next BKC of Mumbai
3. Downtown Dubai – SRL’s international foray
4. Premium projects across different micro-markets

1. **BKC – SRL’s growth engine no. 1**

BKC is the true CBD (Central Business District) of India like Manhattan (USA), Singapore or downtown Dubai (UAE). BKC is home to most of the biggest corporate, financial institutions and stock exchange bourses. It has the best infrastructure which provides the only ‘slum free’ and a ‘hawker free’ zone in India. SRL has 5 projects totalling ~2.5 msf in BKC worth Rs 61bn.

2. ODC (Goregaon) – SRL's growth engine no. 2

ODC (Oshiwara District Centre c. 160 acres) is the third CBD of Mumbai and is located between Goregaon east and Lokhandwala, Andheri west. In ODC, ~10 msf office space is already operational like Nirlon Knowledge Park, Nesco, Mind Space, Industrial and SME's areas. Several back offices of banks like Citi, J.P. Morgan, Barclays, Kotak, Deutsche Bank and also many IT companies are present in this area. This area is being planned with a target of additional 0.25mn jobs. The area has a stable residential market of western suburbs with a potential saleability of about 4,500 plus units annually. SRL has 5 projects totalling ~7msf in ODC worth Rs 100bn.

Source: Company Presentation, IndiaNivesh Research

3. Downtown Dubai, international foray – SRL's growth engine no. 3

SRL entered into a 50:50 JV to acquire a prime land parcel in downtown Dubai. The area is regarded as one of the most desired address of Dubai with BurjKhalifa and Dubai Mall in the neighbourhood. SRL plans to construct branded residences on the said land parcel. Total investment of SRL towards the land parcel is Rs. 1.6bn and net revenue opportunity for SRL is around Rs 38bn.

4. Premium projects across micro-markets – SRL's growth engine no. 4

SRL is undertaking premium projects across different micro-markets like Airoli (Signia Waterfront), Andheri (Signia Pride) and Borivali (Signia High). These three projects of SRL has total area of ~1 msf, which will be completed in next two years. According to the company, potential revenue that can be generated from these three projects is to the tune of Rs 8bn.

■ Execution pick-up to drive revenue recognition

Out of SRL's ongoing projects, several projects are lined up for revenue recognition in the next two years FY17-FY18. During FY17, SRL is likely to recognise revenue from its Signia Pearl project in BKC, with a net surplus of Rs 7.3bn. The company is also expected to recognise revenues from its completed projects inventory to the tune of Rs 19bn in FY17. Other than these two projects, SRL is also planning pre-launch of its upcoming project Sunteck City 3rd Avenue at ODC Goregaon, during H1FY18. Among the projects that are lined up for revenue recognition in FY18 are, Sunteck City 1st Avenue, Signia High and Signia Pride. SRL is also expected to pre-launch its Sunteck City 4th Avenue during FY18.

■ Strong visibility on future cash flows

SRL has strong visibility on future cash flows from its ongoing and already completed projects. From SRL's 6 completed projects with BUA of ~2.5 msf and 8 ongoing projects with BUA of ~3.4 msf, the company is expected to generate Rs 11bn of cash flows. Cumulatively from all the above projects SRL is expected to generate net cash flows of Rs 15.9bn and Rs 21.5bn respectively for FY17 and FY18.

- Completed projects inventory ~Rs 22bn (SRL share ~Rs 19bn)
- Ongoing projects inventory ~Rs 35bn (SRL share ~Rs 31bn)
- Gross value of upcoming projects ~Rs 117bn (SRL share is ~Rs 97bn)
- Future projects has a development potential of ~13 msf

Financials

■ Consolidated revenue to grow at a CAGR of 26.1% over FY16-18E

SRL has strong revenue visibility from its ongoing and already completed projects. SRL follows project completion method for revenue recognition unlike percentage completion method of other developers. As a result SRL's sales are lumpy in nature. Sales in Signature Island came for revenue recognition in FY14 and revenue from Signia Isles was recognised in Q4FY16. We expect SRL to recognise its Signia Pearl revenues in FY17, while Sunteck City – 1st Avenue and Signia High should come for revenue recognition in FY18.

Consolidated revenue growth trend of SRL

Source: Company, IndiaNivesh Research

At the end of Q4FY16, SRL's unrecognised pre-sales stood at ~Rs 17bn which is 2.2x its FY16 sales giving strong revenue visibility for FY17-18E. With the upcoming launch of its new phase in ODC Goregaon (Sunteck City 3rd Avenue) in H1FY18, we expect SRL's revenue backlog to further rise from the current 2.2x FY16 sales. Once SRL's 3rd Avenue in ODC Goregaon gets launched (residential development; 1.5msf), it would contribute significantly to the company's new sales and further increase its momentum from current 5.5msf to around 11.0msf. In our model we have forecasted revenue CAGR of 26.1% for SRL's consolidated revenue over FY16-18E period.

■ **PAT to witness 34.4% CAGR over FY16-18E with 420bps expansion in EBITDA margin**

SRL has visible strong cash flows from its six completed projects with BUA of ~2.5msf and eight ongoing projects with BUA of ~3.4msf. We believe, going forward, new sales momentum coupled with execution of its ongoing projects would help the company to ramp up its earnings over the next few years. We expect SRL to report 34.4% CAGR in its earnings over FY16-18E with nearly 420bps expansion in its EBITDA margin.

Valuations

We have valued SRL using DCF method, wherein we have calculated value of its real estate business comprising ongoing and forthcoming projects, planned projects, pending value from completed development projects and completed annuity projects. We have assumed a risk free rate of 7.8%, equity risk premium of 10%, beta of 0.9, tax rate of 35%, terminal growth rate of 2.5% and 12.5% cost of debt to arrive at our WACC of 15.09%. Our DCF method yields a NAV of Rs 398/share for SRL. Applying a 10% discount to our NAV, we arrive at a target price of Rs 358/share for SRL.

At the CMP of Rs 228, SRL is currently available at a steep discount of 42.7% to its NAV of Rs 398, which is quite attractive given the company's future growth potential. We initiate coverage on SRL with a BUY rating and a target price of Rs 358, which gives an upside potential of 57%.

Initiating Coverage

Disclaimer: This report has been prepared by IndiaNivesh Securities Limited ("INSL") and published in accordance with the provisions of Regulation 18 of the Securities and Exchange Board of India (Research Analysts) Regulations, 2014, for use by the recipient as information only and is not for circulation or public distribution. INSL includes subsidiaries, group and associate companies, promoters, directors, employees and affiliates. This report is not to be altered, transmitted, reproduced, copied, redistributed, uploaded, published or made available to others, in any form, in whole or in part, for any purpose without prior written permission from INSL. The projections and the forecasts described in this report are based upon a number of estimates and assumptions and are inherently subject to significant uncertainties and contingencies. Projections and forecasts are necessarily speculative in nature, and it can be expected that one or more of the estimates on which the projections are forecasts were based will not materialize or will vary significantly from actual results and such variations will likely increase over the period of time. All the projections and forecasts described in this report have been prepared solely by authors of this report independently. None of the forecasts were prepared with a view towards compliance with published guidelines or generally accepted accounting principles.

This report should not be construed as an offer to sell or the solicitation of an offer to buy, purchase or subscribe to any securities, and neither this report nor anything contained therein shall form the basis of or be relied upon in connection with any contract or commitment whatsoever. It does not constitute a personal recommendation or take into account the particular investment objective, financial situation or needs of individual clients. The research analysts of INSL have adhered to the code of conduct under Regulation 24 (2) of the Securities and Exchange Board of India (Research Analysts) Regulations, 2014. The recipients of this report must make their own investment decisions, based on their own investment objectives, financial situation or needs and other factors. The recipients should consider and independently evaluate whether it is suitable for its/ his/ her/their particular circumstances and if necessary, seek professional / financial advice as there is substantial risk of loss. INSL does not take any responsibility thereof. Any such recipient shall be responsible for conducting his/her/its/their own investigation and analysis of the information contained or referred to in this report and of evaluating the merits and risks involved in securities forming the subject matter of this report. The price and value of the investment referred to in this report and income from them may go up as well as down, and investors may realize profit/loss on their investments. Past performance is not a guide for future performance. Actual results may differ materially from those set forth in the projection.

Except for the historical information contained herein, statements in this report, which contain words such as 'will', 'would', etc., and similar expressions or variations of such words may constitute 'forward-looking statements'. These forward-looking statements involve a number of risks, uncertainties and other factors that could cause actual results to differ materially from those suggested by the forward-looking statements. Forward-looking statements are not predictions and may be subject to change without notice. INSL undertakes no obligation to update forward-looking statements to reflect events or circumstances after the date thereof. INSL accepts no liabilities for any loss or damage of any kind arising out of use of this report.

This report has been prepared by INSL based upon the information available in the public domain and other public sources believed to be reliable. Though utmost care has been taken to ensure its accuracy and completeness, no representation or warranty, express or implied is made by INSL that such information is accurate or complete and/or is independently verified. The contents of this report represent the assumptions and projections of INSL and INSL does not guarantee the accuracy or reliability of any projection, assurances or advice made herein. Nothing in this report constitutes investment, legal, accounting and/or tax advice or a representation that any investment or strategy is suitable or appropriate to recipients' specific circumstances. This report is based / focused on fundamentals of the Company and forward-looking statements as such, may not match with a report on a company's technical analysis report. This report may not be followed by any specific event update/ follow-up.
